We are very happy to introduce our wide range of SULO CITYMATE™ litter bins to you. This product range has a long tradition at SULO. It is full of design highlights that have influenced the style of city furniture around the world.

It is also full of success stories - not the least because of our highly estimated full service concept that comes along with the litter bins. An example that we are especially proud of is the CITYMATE™ Cibeles in Madrid, which has become a unique and unmistakable element of the urban identity of Madrid.

The key question we always ask ourself is:  
What is necessary to inspire people to collect waste instead of polluting the environment?  
The answer is essential to us, since the SULO mission is to create solutions for today's waste to be tomorrow's resource.

We are convinced that a successful litter bin must be  
... well designed  
... absolutely functional and understandable  
... perfectly adapted to the environment  
... and made of recycled material and 100 % recyclable due to our claim for CIRCULAR ECO.

Every single SULO model has proved to fulfill these requirements thousands and millions of times on the streets and squares of the world. Numerous equipment options offer you the chance to purchase exactly the variant or series that suits you and your city best.

**Michel Kempinski**

President of the SULO Group

## Your carefree package

# INDIVIDUAL SERVICE

Aesthetic and robust SULO CITYMATE™ litter bins are ambassadors of cleanliness in multiple cities all over the world. Therefore it is essential to keep them as clean, ready for us and undamaged as possible, so that they really inspire people to collect and sort waste. There are usually thousands of litter bins in every city, that have to be installed, maintained, repaired, washed, replaced, which is a major challenge for the planning processes of municipalities.

With the experience of Europe's leading waste management specialist the SULO group has developed a holistic all-round carefree service package with tailor-made logistics and service solutions for an efficient and trouble-free operation.

### YOUR CITYMATE™ LITTER BINS SERVICE ADVANTAGES AT A GLANCE

- Clean litter bins are a business card for your city
- All services around installation, maintenance, cleaning, disposal from one source
- Full transparency and cost control
- Longer lifespans thanks to proper servicing and maintenance
- The reliability and operational safety of the leading waste disposal company

### Digital location by chip equipment

In order to make planning around installation, maintenance and servicing even more effective, certain litter bins can be equipped with a chip. Using the latest RFID transponder technology from SULO, the litter bins can be reliably located and the necessary steps can be planned efficiently and in a resource-saving manner.

- 1** Installation
- 2** Washing
- 3** Repair / Maintenance
- 4** Full control with RFID equipped litter bins

# CITY

# WASTE<sup>TM</sup>

## CIBELES

## Identity by Design

# CIBELES SERIES

Our CITYMATE™ Cibeles series underlines the visual identity of your city and is a contribution to make it unique. It was designed for the consistent furnishing of the city in all its functional and cultural areas. High-quality metallic litter bins for the old town, or robust plastic for the modern shopping street. Each CITYMATE™ Cibeles litter bin is always recognizable and unique in its design.

The elegant allround-genius feels at home anywhere in the city

- Designed by the architectural firm Ricardo Bofill & Marta de Vilallonga
- The easily recognisable shape blends harmoniously into the urban landscape
- A prominent example is Madrid, where 65.000 Cibeles are placed all over the city in all sizes, in steel and plastic versions
- The lid protects the container from rainwater
- The size of the opening has been chosen so that no residual waste can be thrown in
- The stylish ribbing prevents graffiti
- Via RFID chip, networking with a GPS is possible so that each CITYMATE™ Cibeles can be geolocated for effectively controlled and documented maintenance and washing
- Available as a standing or hanging version and in 50, 60, 80 and 120 litres

# Timeless elegance made of cast iron

## TRADITION 80L

### Distinguished waste column for special locations

- Classic elegance, octagonal shape fits especially in historic cities and attractive locations
- Harmonises perfectly with candelabras, lanterns and architectural highlights
- The housing is made entirely of cast iron, painted with ultra-resistant polyester
- Basket made of PELLD polyethylene or hot-dip galvanized steel
- Fire resistant
- Thanks to its own relatively high weight of 90 kg, it stands stable and secure on its own. It can also be fixed to the ground
