With a variety of selectable colours and shapes, this futuristic recycling bank is a sympathetic statement for a liveable and creative city.

- Recognisable, lightly rounded design creates a pleasant environment
- Any impression of massiveness is avoided
- Made of roto-moulded PEHD in a great variety of colours and shapes
- Inside structure optimized for maximal use of the volume
- Increased weather resistance, shock and break-proof
- Several top and bottom panels on both front sides facilitate the barrierfree use for older people and children
- Maximal vandal resistant finish, because grainy surfaces make it difficult for stickers and posters to adhere
